

**A tailor made programme for
cleantech entrepreneurs who
want to make a difference in
BUILDING SUSTAINABLE
CITIES**

- How tech change the way we live!

Sub-themes:

- **Urban farming, greening cities**
- **Energy optimization**
- **Sustainable building materials**
- **Waste management**

IN PARTNERSHIP WITH NCC

"We work purposefully to reduce both our own and our customers' environmental impact and continuously refine our offerings with additional products and solutions for sustainability. Therefore, we are very excited about being a partner of the CIA Program and hopeful about finding solutions that can be a driver towards a more sustainable future within construction"

- NCC

WHAT YOU GET

Would you like to further **develop your business** together with corporates and entrepreneurs from Denmark and Sweden?..

..Tap in to a **network** of people, activities and possibilities for development and funding both in your region - and internationally?

Then get in touch or sign up directly for the Cleantech Impact Accelerator's 2nd round and get a chance to be selected.

Participants will get:

- Access to strategic developments of greener cities and how to engage in partnerships with relevant stakeholders for new business opportunities

Customer insights

- Possibility to get a technological consultation of your idea by an expert*

Technical validation*

- Business support and individual learning targets
- Online Masterclasses on how to develop your business

Tailor-made Training

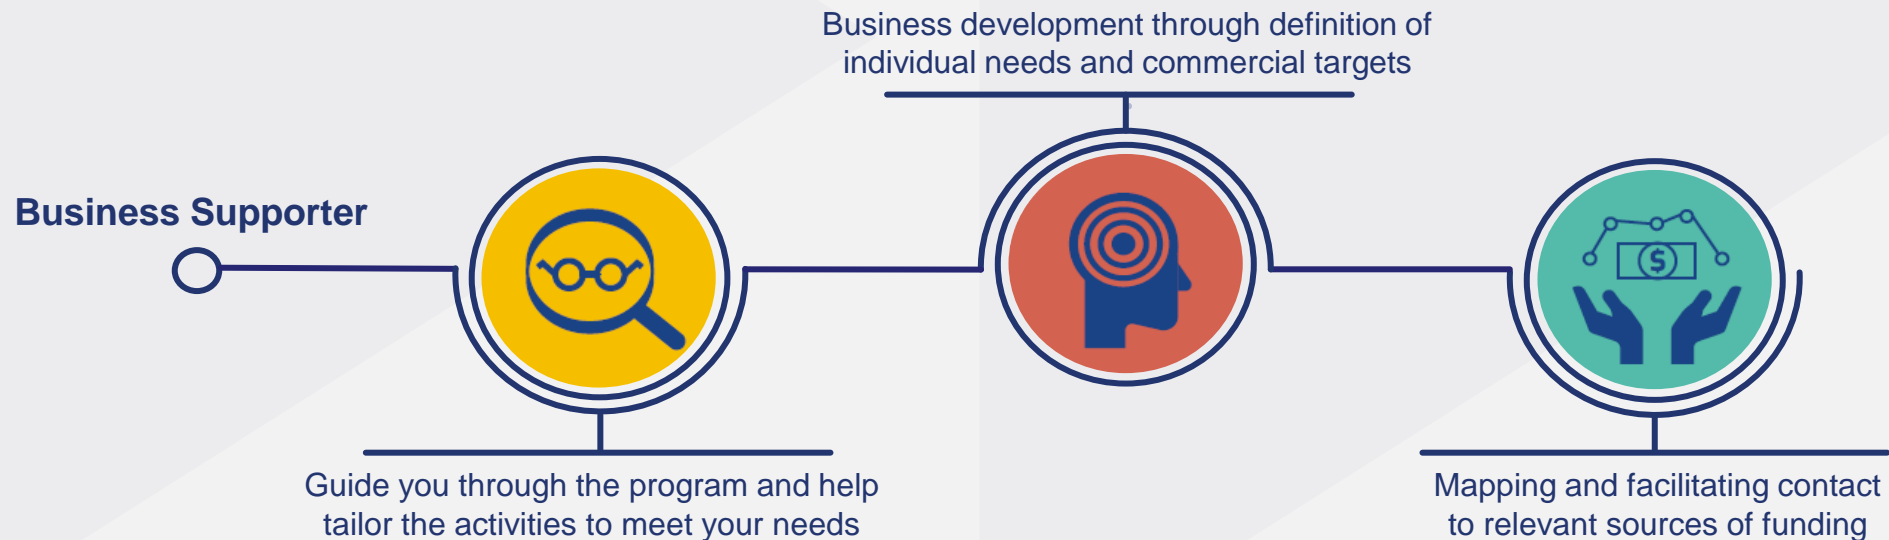

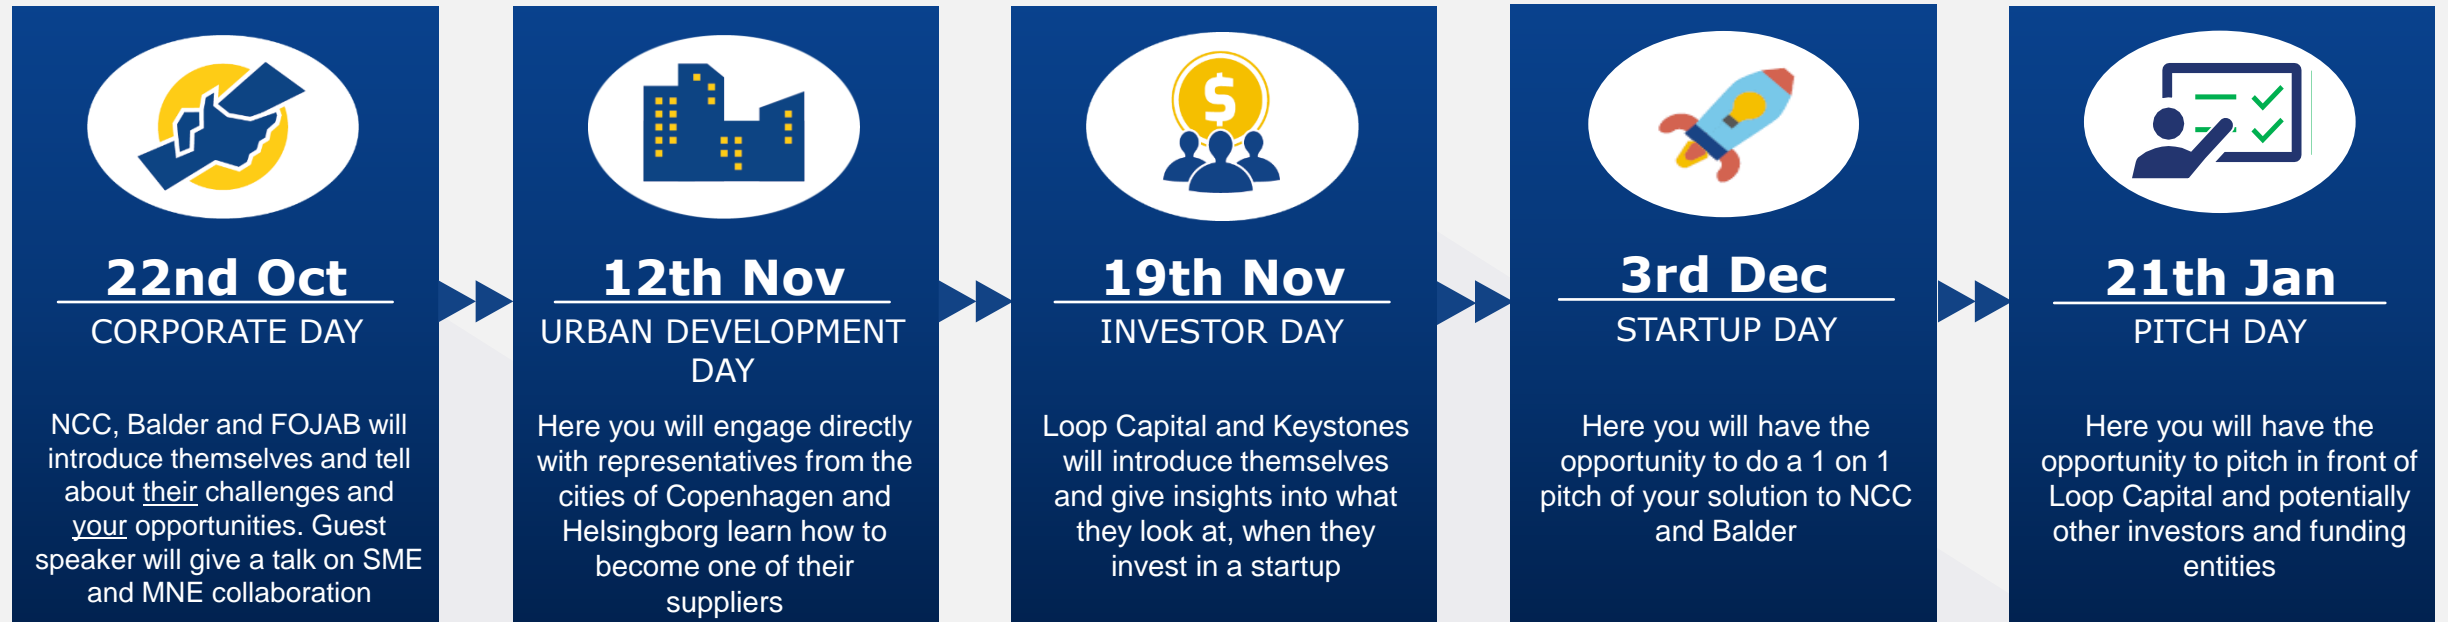

- Practice and perfect your pitch-deck for potential clients and/or investors
- Access to potential funding and investments

Potential investment

*Technological consultation is tailor-made to the technology and is for free, but may come with a cost if the standard set-up of scouting expert and a ½ hour meeting is not enough.

CLEANTECH IMPACT ACCELERATOR ACTIVITIES

DIRECT OPPORTUNITY TO GET IN DIALOGUE FOR COLLABORATIONS, COMMERCIAL AGREEMENTS AND FUNDING

NCC is one of the leading construction and property development companies in the Nordic region, with sales of nearly SEK 58 billion and 15,500 employees. For them, efficient construction at the right price and with as little impact on the climate as possible is a key issue for the future.

They are therefore committed to improving construction methods and collaborative processes and reducing energy consumption.

In collaboration with:
The logo for proptech DENMARK, featuring a green icon of three stylized buildings and the text 'proptech DENMARK' in a green, sans-serif font.

Balder is a versatile property company with 14 years of experience and more than 600 employees. They own the entire value chain: everything from the construction of new properties to the rental and subsequent management of these.

They strive to build sustainable properties and several of their newbuilds feature sustainable rainwater management, waste sorting, low-energy windows and appliances with a minimum A+ energy rating”

FOJAB Architects is one of Sweden's leading architectural firms with more than 140 qualified employees and offices in Malmö, Stockholm and Helsingborg. Their business is to create and develop architecture in a creative process in the form of urban environments, buildings, landscapes and interior design.

The internationally recognized expert in Computational Design, Petra Jennings, who is also responsible for FOJABcode, a development platform on how digital development can shape the construction process, will be involved in the program.

DIRECT OPPORTUNITY TO GET IN DIALOGUE FOR COLLABORATIONS, COMMERCIAL AGREEMENTS AND FUNDING

Loop is an angel investment company with angels from Skåne and focus on Skåne, they invest in the early stages 6 months before to 6 months after the company has launched on the market and started validating its business idea.

Their investors and owners are a strong group of highly competent people with backgrounds from many different industries, demo industry to building their own companies within TECH. They invest in the people behind the company and their ability to build and implement their visions.

KEYSTONES

Keystones is a fast-growing network of Danish company builders: business angels, serial-entrepreneurs and executives living across the world with a shared love for entrepreneurship. Keystones is specialized in the art of angel investing and new business development.

Through more than a decade, they've built a strong reputation for helping hundreds of Danish startups, business leaders and angel investors partner up with one another. As a result they've served the largest accelerators, funds, public partners and angel networks across Denmark

SUSTAINABLE CITIES – UNDERSTAND THE VISION OF SUSTAINABLE CITIES AND LEARN HOW TO BECOME A PART OF THIS VISION
